

AGENDA

8:00 a.m. – 4:30 p.m. Agenda times may vary depending on setting needs and speakers travel time

8:15 AM – 8:30 AM	Introduction Welcome <i>Janet Hurley</i>	CEU Credit SPCS/AG
8:30 –9:30 AM	Managing the AG Science program to ensure IPM is part of the program. This session will cover who needs to have a license, what type of license they need, a review of the best management practices and how to coordinate efforts between teachers, the IPM coordinator and pest management contractors. Speaker Janet Hurley	1 General L & R/1 L&R
9:30 –9:45 AM	Break	
9:45 – 11:45 AM	Ants that bother you inside and outside This session will cover the most common ant species in TX. This will cover rover ants, Argentine ants, odorous house ants, fire ants, tawney crazy ants and other ants of concern around schools. Speaker: Jake Wightman	1 Pest/1 General
11:45 – 12:30	Catered Lunch	
12:30 – 1:45	Blood-Feeding Arthropod Pests There are several arthropod pest species that adversely affect the health and wellbeing of humans and their companion animals through their feeding behavior. Their feeding behavior is a source of annoyance and pain to the host animal and serves as a potential transmission point for disease pathogens (i.e. bacteria, virus, protozoans) carried by these vectors. Insects covered will be fleas, kissing bugs, head lice and ticks Speaker: Jake Wightman	1 Pest/ 1 General
1:45 – 2:00 PM	Break	
2:00 – 3:00 PM	IPM Inspections because they are important to your program This session will cover what an IPM inspection is, items you need to look for when called to a campus about a pest problem and how to report it. This session will allow class participants to tour the training facility for pest activity and then discuss as a class with the instructors. Speakers Janet Hurley and Jake Wightman	1 IPM/ 1 IPM
3:00 – 4:00 PM	Tools of the trade IPM coordinators need to understand the different pest management application methods that can be done in and around school campuses. This session will cover types of sprayers, crack & crevice treatments, granular applications for outdoor use and rodent control measures. Speakers Janet Hurley and Jake Wightman	1 Gen other/1 General Application Techniques
4:00 – 4:30	Wrap up and Certificates
